

# HDH Web-X

## Cobweb Eliminator

HDH Web-X is formulated to eliminate spider webs and to inhibit the formation of cobwebs. It acts by breaking down the attachment points in order to facilitate easy removal. The residue left on the surface aids in preventing new attachment points from being established. HDH Web-X may be applied to wood, painted surfaces, vinyl, fiberglass, concrete and masonry. For best results use a sponge to apply HDH Web-X on metal surfaces. Remove any web residue with a broom.

Since HDH Web-X is composed entirely of substances approved for contact with food under Title 21 of the Code of Federal Regulations, it is appropriate for use in fresh fruit and vegetable packinghouses. Supplied ready to use one gallon will treat 1500 square feet.

### **Application**

SHAKE WELL and do not dilute. Even though contents are all natural and nontoxic, contact with the eyes may cause irritation. IF IN EYES: Flush with water 15 minutes. Get medical attention

Eliminates cobwebs both indoors, outdoors or anywhere cobwebs are noticed. HDH Web-X will not stain and has no long lasting odor. The mildly acidic odor noticed after application indicates the product is effectively working. This odor disappears usually in 24hrs. HDH Web-X deteriorates the webs' attachment points making for easy removal and maintains a neat and clean appearance. It also discourages the reformation of cobwebs. Adjust nozzle to stream. Applications should completely wet the area, then remove the web residue with a stiff-bristle broom. Do not rinse after application. HDH Web-X may be applied indoors/outdoors on paint, metal, fiberglass, concrete and masonry. Reapply as often as needed.
